

# Example markdown output for Pandoc

RdR

2019-07-07

## Introduction

This is example markdown text that can be handled by Pandoc

Listing 1: -

```
1
2 main :- hello( world ).
3 hello(X):- write( '**' ),write( 'hello_□' ), write(X), writeln( '**' ).
4
5 :- main.
```

**hello world**

The code shown in Listing 1 is a simple Prolog program.
